SERVICE CONDITIONS

- Vodafone Secure Internet requires a Private IP (PIP) connection from Vodafone (which will require Business Enhanced)
- Vodafone Secure Internet is available in a range of speeds from 10 Mbps up to 1Gbps
- Vodafone Secure Internet is designed to provide a high level of security but does not guarantee protection from risks or inadequate security policies or procedures
- Vodafone Secure Internet is available for a minimum contract term of 12 months
- Early Termination Charges apply
- Accessing your VSI service from outside of your network requires the provisioning of secure 2-factor authentication tokens, which attracts non-recurring charges
- Moves, Adds and Changes (MACs) to Vodafone Secure Internet will attract non-recurring charges
- Non-recurring charges for simple or standard MACs can be implemented at a fixed price
- If you are a VSI Standard customer you will be provided with our standard reports which will set out usage information on a 24x7 basis including information sorted by IP address
- If you are a VSI Flex or a VSI Premium customer you will have access to the VSI Customer Portal and customisable reporting
- VSI is designed to achieve a 99.92% target platform availability measured over a rolling 90 day period
- Prior to using the VSI product, you must ensure that your Users have provided their express informed consent to the collection, use, disclosure of and access to their personal information for the purposes of the service
- You may be required to agree to Additional Terms and Conditions as a precondition to accessing and using the VSI product.
