MASTER SERVICES AGREEMENT

SERVICE DESCRIPTIONS

- Advanced set-up is provided as part of Vodafone's Managed Mobility service and is charged on a time and materials basis.
- Vodafone Secure Device Manager is billed in arrears, and there is no part month charging. The first-month charge will be for a full month regardless of which point in the billing cycle you sign up.
- Vodafone Secure Device Manager is only for devices on the Vodafone NZ network or attached to an overseas network.
- WiFi devices may also be managed by Vodafone Secure Device Manager.
- Vodafone Secure Device Manager is compatible with Business Basics, Red+ Business, Red Share for Business, Business Black, Business Team Plan and Red Sure Spend.
- The On-Boarding Service provides our standard programme management and implementation services to train your administrator to set up and configure the VSDM Server Software in readiness for your activation of the VSDM Services and enrolment of your Devices.
